# Single Page Application

/1 Internet Banking System/Single Page Application

**Dot Executable: /opt/local/bin/dot**
**File does not exist**
**Cannot find Graphviz. You should try**

**@startuml**
**testdot**
**@enduml**

 **or**

**java -jar plantuml.jar -testdot**

**Legend**

| |
|---|
| person |
| system |
| container |
| component |
| external person |
| external system |
| external container |
| external component |

**Level 3: Component diagram**

Next you can zoom in and decompose each container further to identify the major structural building blocks and their interactions.

The Component diagram shows how a container is made up of a number of "components", what each of those components are, their responsibilities and the technology/implementation details.

**Scope**: A single container.

**Primary elements**: Components within the container in scope. Supporting elements: Containers (within the software system in scope) plus people and software systems directly connected to the components.

**Intended audience**: Software architects and developers.
